

Ciro Noronha, Ph.D.

EVP Engineering
Cobalt Digital

Speaker Bio:

Dr. Ciro Noronha holds a BS and MS in Electrical Engineering from Instituto Tecnológico de Aeronáutica, Brazil, and a Ph.D. in Electrical Engineering from Stanford University. He has worked in the compressed video over IP space since 1995.

Dr. Noronha has previously held engineering management positions at Optivision, SkyStream, Tandberg Television and Ericsson, having led the development of a number of compression and networking products, including encoders, decoders, transcoders, gateways and multiplexers. In 1999 and 2001, he had appointments as Consulting Professor at the Electrical Engineering Department at Stanford University.

Dr. Noronha was one of the founders of ImmediaTV Corporation, acquired by Cobalt Digital in 2016 and is currently Executive Vice-President of Engineering at Cobalt Digital. Dr. Noronha is the author or co-author of a number of academic papers and has seven issued patents.

Dr. Noronha is the editor for the Reliable Internet Stream Transport (RIST) series of Technical Recommendations from the Video Services Forum, as well as the President of the RIST Forum.
